Meeting of the Murchison Club.

The monthly meeting of the above Association

was held on Monday evening last, and was the most

interesting that has yet been held.

Mr. J. H. Evans was present with his

microscope, and exhibited the circulation of the

blood in the foot of a living frog. It was

observed that the blood in the arteries, in

the rapid flow of the vital fluid in the arteries,

in which the globe appeared to pulsate each

artery, and the blood in the veins, which

was slower and more equable motion in

the veins formed a remarkable contrast to the

arterial action. Mr. Evans also showed

some of those curious little animals, the

vertebrates, in a drop of water, and the

microscopic view of the animalcules attached

to some stationary object, and gradually

acquired its full length, and coiled up again

at a jerk, at the same time releasing all the

appendages, from which it derives its

name of "wheel animalcule."

Mr. Akers was also there with his "bi-

microscope," and a selection of insect wings,

diatoms, and other interesting objects.

The subject of the evening, "Our insect

life," should have been opened by Prof. C.

Akenside, but as he was detained by the

cold, at his request it was opened by the

President, Prof. Bell, who gave a succinct

outline of the history and transformation of

the insect.

This was followed by an animated discussion

on their habits and capabilities, and the

distinction between insects and man, and

the relation of insects to the human race.

The subject was then discussed by Mr. W.

Macdonald, Prof. Dawson, Mr. Wills, Mr.

Finn, Mr. Redick, Mr. Akers, Prof.

Carlyle, Mr. Smith, Rev. Mr. Burton, and

the President.

Another monthly periodical, "The Ameri-

can Naturalist," has been founded to the

advancement of the study of nature, and

the numbers can be had for reading by

members, on application to Mr. W. R. Smith, at

the County Clerk's office, who has been appointed

editor, and who will be found every day

from 9 a. m. to 5 p. m.

The subject, proposed for discussion at the

next meeting, on the last Monday in June, is

"The Insects."

A PREDICTION.—The Ottawa Free Press

says:—"It is predicted that mosquitoes will

be unusually abundant this year, owing to

the high water, and each one to be as big

as a house fly. This is a bad omen for

the lovers of good sport in the woods."

WARRINGTON.—In proceeding upon the

subject of the National Rifle Association, the

Duke of Cambridge announced that an

Australian team was coming over to the

competition at Warrington, and would join

the Canadians in shooting for the Kellogg

Cup and other prizes.

THE LUMBER MARKET.—The Ottawa

City says:—"Lumber shipping has com-

menced again in earnest. A few small sales

of lumber have been made during the

present week, at better prices. The Chan-

dler mill-owners have decided to cut

nothing but deals for the remainder of the

season."

VANDERBILT.—The New York Herald

of the 31st inst. says:—"Commodore Van-

derbilt's condition is worse, and it is now

considered to be only a matter of a day or

so when death will take place. The phy-

sicians are in constant attendance, and not

much number of the family are admitted to

his chamber. His disease may be looked

for at any moment."

NARROW ESCAPE.—The Pictou Times

says:—"The new M. E. Church had a

narrow escape from fire on Saturday last.

The trustees, working on the spire, left

their soldering apparatus, containing a few

cans of fire, which they went to dinner, and

the steeple, and the wind fanning them, to

a blaze ignited the wood-work. Some persons

in passing the building noticed the danger

and gave the alarm, and the fire was quickly

extinguished without doing much damage."

consideration. The vote was 264 to 165.

Strange Developments about the

Murder of Thomas D'Arcy

McGee.

The Montreal Star is responsible for the

following:—"It is reported that a man named

Trotter, now in the custody of the police,

has confessed to having shot and killed Thomas

D'Arcy McGee. From information we received to-day

from a resident of Ottawa, it appears that it

was in this same Trotter's mother's house that

McGee was lodging and was about to enter

at the time of his death. Trotter, the con-

fessed murderer, was at the time a young

man, and was a page in the House of

Commons. He was the first to find the

body of McGee, and he was the first to

shoot and to give the alarm. It is said the

mother of Mrs. Trotter's house must have

been furnished with the footstep of McGee

tried to open the door, and it is supposed this

was done to detain him until his assassin was

ready for his fatal purpose. It is said there

were many other collateral circum-

stances connected with the shooting which

strengthened the opinion that Trotter was

the man that fired the fatal shot, and it is

hoped some steps will be taken before he

is released, and the inquiry further into

the matter. It would be strange indeed if

the wrong man had been hanged after all.

Trotter was a witness at the trial against

Whelan.

The Quebec Fire.

The Montreal Star has the following ad-

ditional particulars of the fearful fire at Que-

bec:—"The streets wholly or partly destroyed

may be briefly enumerated as follows: Claire,

Fontaine, Preston, Prevost, Plessis, Ross,

Drolet, Berthelot, St. Margaret, Lacharriere,

St. Michel, Angellier, Arriault, St. Croix, St.

John, St. Joseph, St. Augustin and St.

Désiré.

Mr. Hearn's fine block on St. Amable street,

Montreal Buildings, is destroyed.

The Church and Convent of Le Bon Pas-

sar had a narrow escape.

A man has since died of fright.

One man died this morning from injuries

received from burns.

Two or three children are reported mis-

sing.

The insurance, generally speaking, is very

heavy, and mostly in this district; probably

to the extent of half a million.

The Jesuit barracks were thrown open to

the homeless ones, as well as the drill and

food was supplied them by the Mayor.

The scenes at these places were heart-rend-

ing.

QUEBEC, June 1.—Several arrests have been

fire. In some cases furniture and effects were

stolen by the cart-load.

From under the feet of a case who had mounted

it with the intention of saving the house.

One proprietor purposely removed a ladder

from under the feet of a case who had mounted

it with the intention of saving the house.

In another instance, an insured proprietor hav-

ing two barrels of coal piled by his neighbors,

and at last, when they insisted, removed it in

such a manner that a considerable portion was

ruined.

Early yesterday morning, it is also said,

a smoke was seen by a policeman to be issuing

from the windows of a house, where Mr. Kelly

was residing, and which had been saved after

considerable exertion from the fire the previous

night. Upon a number of the fire brigades

entering the house, in order to find the cause

of the fire, the proprietor, and the proprietor

knocked down the man who had come in

to see the fire.

Mr. Kelly was with a very painful acci-

dent, owing to the giving way of a rotten

McNelly, of this town, is making a very superior inn, which will only cost him a few dollars to build. It is a first-class inn, and will be generally used. It is a fine brick, is bright on paper, and another corner on gum the pen. We recommend the inn to all who have a great deal of writing to do. As a Canadian inn, it is a great deal better than the imported inn."

DISORDERLY DAY.—The joint Committee of the St. George's and St. Andrew's Societies met last night and resolved to hold a picnic and regatta at Massena Point on the evening of July 4th. The arrangements for the picnic are in the hands of the committee, and it is safe to say that the affair will be a success. Those who have promised to attend the same affairs, be a great success. In fact, it is the intention of the Societies to make their picnic, and to have a regatta on the same day. The price for the regatta (open only to second class boats) will be either a liberal trophy or a silver cup, but it is a first-class chance for the owners of the regatta boats, who have expressed a desire to go to Belleville, and to do so.

Artisans will be given so soon as the arrangements are completed.

EXCITEMENT IN SERBIA AND MONTENEGRO.

THE POWERS TO RECOGNIZE. NO FURTHER ARMISTICE.

LONDON, June 3.—The *Times* despatch from Berlin reports that Emperor William has just arrived at Enns, and that the Austro-Serbian war is now in progress. The despatch also states that the Emperor is expected to return to Berlin on Monday.

The *Official Gazette* of Montenegro declares a fresh armistice, and says the Austro-Serbian war is now in progress. The despatch also states that the Emperor is expected to return to Berlin on Monday.

The Eastern Question.

LONDON, June 3.—A despatch from Vienna says the Austrian Government has advised the Emperor to send a fleet to the Adriatic, and that the Emperor is expected to return to Berlin on Monday.

The *Paris* correspondence of the *Times* says it seems now beyond doubt that Russia, in accordance with the Emperor's wishes, has agreed to postpone the presentation of the Berlin memorial to the Porte.

A Berlin despatch declares that the action of Romania and Serbia in relation to their contemplated declaration of independence, which seems willing to recognize Russia on condition that she abandons the idea of waging war against Serbia and Montenegro, is expected that the new Sultan will give no binding promise.

It is reported that three British men-of-war are cruising off the Dalmatian coast to prevent the landing of arms for the insurgents. In the meantime, the Austro-Serbian war is now in progress.

On Wednesday an English man-of-war landed at Durazzo, and a force of arms for Turkish troops at Albania.

A Vienna special says it is rumored that an alliance of Western powers, including Austria, is being formed to support the initiative of the British Government, and that the Emperor is expected to return to Berlin on Monday.

Daily Intelligencer.
BELLEVILLE, TUESDAY, JUNE 6.

Town and Vicinity.

STATION LOCATIONS.—There were three of them last night, as a variety of cases.

PERSONAL.—We learn that Mr. John R. Benson, one of the Town Commissioners for Sarnia Ward, has become the proprietor of the Brighton Bazaar. We have no notice in noticing this new enterprise. Fourth Estate, and trust that Mr. Benson may be successful in his venture.

STEWARTS.—A supply of the best of all berries has already been received at Oswego. Doubtless importations, per the steamers which trade between Oswego and Belleville, will be made one long and not on the boats did quite a lively business in this line.

FRONT STREET.—An excellent job is being done on Front street by the Street Surveyor and his gang of men. Stone is being laid on the street and broken, to an extent sufficient to make the roadway to the west of the Street Railway, wherever required. This will obviate all danger of broken ankles, and will make Front Street one of the most level and excellent thoroughfares in the Province.

STOCK POLICE CENTINEL.—The live Stock Department at the Centennial promises to be a great interest. It is supposed about 1000 prizes will be awarded, but what amount or what way is not yet generally known. A steamship is fitted especially for bringing stock from Europe. The Stock exhibition will take place on October 10th to the 18th. Applicants for exhibiting may be made until the 10th of June.

SACRED CONCERT.—The sacred concert and organ recital, to take place in the Bridge Street Methodist Church to-morrow night, under the direction of Mr. Whith, for whose benefit has been arranged, promises to be highly successful. The program has been prepared, embracing many fine selections for the choir and the soloists of the evening, and numerous and splendid themes for the organ. That the singers will do justice to their parts there can be no doubt, and the organ will be heard to the best advantage, as Mr. Whith's skill in his profession has been too often demonstrated to require only in advance of the performance.

CHICKEN.—A third and final meeting for the purpose of organizing the Belleville Cricket Club for the season is to be held at Hamblay's to-morrow evening. Two meetings have been held previously, but on neither occasion was the attendance sufficient to warrant those present in proceeding to business. We trust that to-morrow night's meeting may have a more satisfactory result, as it will be a matter of regret if the long established Club in question were allowed to drop out of existence. The old ground in the center of the town, and will not be in condition for play this season, but the Agricultural Society's grounds can be had on easy terms, and with a little preparation will afford an excellent field for play.

THE "OWINGO BELLE."—The Brockville *Breeze* this speaks of this fine steamer. "The *Owingo Belle*, which is to be ported yesterday, is pronounced by those who have knowledge of such craft, as the finest specimen of ship building that has been seen in the river for many years. She is a new boat built on the good pattern, fitted up for passengers in the best style of modern times, and was built at St. Catharines. We learn that she runs between Oswego, Belleville and Kingston, and will arrive here at 9 o'clock every Tuesday morning from the latter place, returning at 5 p. m. She is under the management of Capt. Ely of Oswego. Her speed is 14 miles an hour."

THE STREET RAILWAY.—Now that the Street Railway has been in operation for two weeks, an opportunity is afforded of pronouncing with some degree of reliability on its usefulness and prospects. So far as we are able to learn, the verdict of the public is decidedly in favor of the road, which, besides placing the distant parts of the town in easy communication with each other, and affording cheap fares to travelers by the railway, has not been more than paying expenses from the start, and the traffic seems to be gradually increasing. On their part, the Company have carried out their agreement fully and fairly. The care is run in accordance with the stipulated hours and the road bed is gradually getting into first-class condition. During the last few days this regularity has not been so well observed, as one car has been withdrawn, and another substituted for the purpose of introducing cash boxes. In a few days, however, the cause of irreg-

ularity will be removed, and the cars will be run as heretofore. One great convenience of this route to excursionists who live at a considerable distance from the wharf. Yesterday, for instance, the cars carried large numbers of excursionists to the wharf in the morning, and when the *Buckeye* arrived at about four cars were in waiting, and all received loads which packed them to their utmost capacity. We have pleasure in noting the success of this useful enterprise.

COURT OF SESSION.—The Court of Revision will hold its first meeting tonight, commencing at 7:30 o'clock.

ARRIVED.—The *Peruvian* arrived at Father Point last night, and her mails may be expected here to-morrow.

LAW SCHOOL.—Amongst those who have passed their examination for admission to the junior class of the Law School in Toronto is Mr. W. B. Northrup, eldest son of A. G. Northrup, Esq., of this town.

FOR BELLEVILLE.—The *Wag* says in its issue of yesterday: "Mr. Crombie was to leave here to-day for Belleville, to conduct a series of revival services. It was also Mr. Medway's intention to accompany him and aid in the work."

FISHING.—A young salmon (grilse) of about 25 pounds weight which had been caught by one of the fish fishermen, was sold on the market this morning. It is a specimen of the salmon of this size can be legally caught.

INSPECTION.—Lt.-Col. W. S. Dwyer, Deputy Adjutant General of this District, was to inspect the army of No. 1 Company, 49th Battalion, here to-day. We venture to say that a more and better kept army than the one in question is not to be found in the Province. Its condition reflecting the highest credit on Capt. Harrison and the other officers of the Company.

LEWIS.—The lumber market is now understood to be a little more favorable than it has been for some time past. Stocks in general of the United States are running low, and the demand seems likely to be greater in a short time. Some considerable sales have lately been made here at prices which have not transpired, but the rule is stated to be constant, and the prices of the lumber market, wherever required. This will obviate all danger of broken ankles, and will make Front Street one of the most level and excellent thoroughfares in the Province.

TEMPERANCE DEMONSTRATION.—The anniversary celebration of the Workingmen's Temperance Association of the Bay district, held at the Centennial, was a great success, the weather being favorable and the company numerous. At a little after 7 a. m. the steamer *Buckeye* left her wharf here, with the Belleville brethren, and a numerous party of excursionists, about 200 in all. Calls were made at Northport and Mill Point, and Pictou was reached at 10 o'clock, where a hearty welcome awaited the members of the Association at the hands of their brethren of that hospitable town. The *Buckeye* and from here, the *Peruvian*, an Italian newspaper, reports that 20,000 men were in readiness to embark from Osaka when orders were countermanded in consequence of the suicide of the Sultan.

OSAKA, June 6.—Three hundred were killed by the Indians 25 miles south of Sidney, in this State, last Saturday.
An official dispatch says that eighteen hundred Chinese soldiers were ordered to leave for Pictou River. The Indians say they will fight, and have three thousand warriors.

OSAKA, June 6.—A dispatch from Carson, Nevada, reports 60 to 100 armed men—supposed anti-Coolie club of that city—stopped a gravel train near the tunnel a mile west of Carson, and ordered the Chinese laborers on the train, and would not allow them to leave. All kinds of rumors are afloat. It is reported that both parties are arming in anticipation of a fight. China town is in danger of being burned. The excitement is intense.

LONDON, June 6.—A Berlin correspondent of the *Times* says: To judge from spoken and printed sentiments of adherents of the Austrian Government it might be assumed that Count Andrassy contemplates the possibility of abandoning Austria's policy of adopting the English view of the Eastern affair.

The Daily Mail, organ of the St. Petersburg Slavophile party, already regards war as imminent, and begins to discuss in what location the Austrians will probably be concentrated to resist the Russian attack. The fact of such an article being published with impunity is a serious matter for reflection.

According to intelligence received through Russian sources the reports are still raging with violence in Bagdad, where about 70 cases and 40 deaths are reported daily.

The Times Paris dispatch says Russia agreed on Saturday to recognize Murad as the Sultan of the Christians.

BIG COAL HOUSE.
We beg to return our sincere thanks to the public for the liberal patronage extended to the past year, and hope if continued in the trade, to merit a fair share of your confidence for the future.
We have decided to do our business on a strictly cash basis, and have made such a reduction in prices as, we feel confident, cannot fail to give satisfaction; but we shall insist upon cash accompanying the orders, otherwise we cannot fulfill them.

BELLVILLE, WEDNESDAY, JUNE 14.

Town and Vicinity.

ARRIVAL.—The steamer *Austrian* arrived at Father Point at 4 a. m., with 21 cabin and 288 stowage passengers.

POLICE COURT.—The only business done in Court this morning was the laying over until Monday next of the liquor cases for judgment.

CLOSE SEASON.—With to-morrow the close season for bass will expire. The restriction has been well observed, and the consequences will be satisfactory to anglers.

TENNIS.—The cells were empty last night, the tramps having betaken themselves to cooler quarters, the cells there being probably too hot for the comfort of these gentry.

TENNIS.—As will be seen by advertisement, tenders are asked by the Chairman of the Building Committee of the Board of Education for the erection of out buildings at School No. 4.

SENIOR CLOTHING.—The Police Commissioners have ordered the procuring of summer clothing for the police force. Mr. A. Robertson, of the "Watson" store, is the only one engaged in filling it.

THE WEATHER.—The last continues to be almost unchangeable. This morning the clouds gathered as for a shower, but were not so much as to fall. The crops have not suffered as yet, though on shallow light soils the effects of the rain are beginning to manifest themselves.

GEORGE.—On the night of Monday, when the firemen were summoned to the Kingston, Mr. Monaghan, the Manager of the Street Railway, immediately placed the Company's cars at the disposal of the firemen. This was a graceful act, and was warmly appreciated by the members of the Fire Brigade.

CHARTER EXCURSIONS.—Mr. Sterling has made arrangements for cheap excursions during the season hence to Niagara Falls, per Grand Trunk to Toronto, steamer *Southern* Bell to Niagara and Canada Southern Railway to the Falls. The trip is a delightful one, and the very low rate of fare places it within the reach of all. See advertisement for particulars.

CHESTER.—It is not at all about time that the eleven which is to represent this County in the match with Prince Edward was chosen, and practice begun. Our neighbors will have to take care to be ready to play to defeat, and as practice is the first requisite of a successful cricketer, play ought to be commenced at once. If beaten in the match, our men ought to be so on their merits, and not by a really inferior bowler in the eleven.

A MUSICAL TRIP.—T. H. B. Parly has added his musical style and secured one of Weber's Celebrated Tri-od Piano, valued at \$1,000, will, on Thursday afternoon at 3 o'clock, receive visitors, and the more merrier. Prof. Donya and the Misses Van Allen and others, have kindly consented to reside at the Piano. Remember the place, next to the Dofco House on the North side. Come and see the grand piano and hear the music. No charge and room for all.

FISHING.—The news reaches us from various points on the river that bass, pickerel and other valuable fish are now more numerous than they have been known to be in many years previous. This result is directly attributable to the construction of fishways on the dams, from the execution of which work the fish have been the benefactor of the fish dealer. In this respect the lake has been a success, and Mr. Wilkins, District Overseer, has succeeded in having his provisions complied with by owners of dams.

THE KENTON MAILS.—After to-day the date of the arrival and departure of the English Mail Company's mail will be the completion of the International Railway will take place. The outgoing mails will be taken by train to Rimouski, which is 200 miles below Quebec, and the incoming mails will be delivered there. This will enable the departure of the mails from Montreal to be postponed till twelve hours later than at present. The incoming mails will arrive here twelve hours later than at present. By these changes the public will derive very considerable advantages—thanks to the International road.

THE KENTON YACHT RACE.—A member of the crew of the *Comet* of *Unifera* writes to the *Globe*: "Yesterday was quite a gala day in the harbour, and a fine race was held between the *Katie Gray* and the *Zulu*, of this port. The first is a Cuthbert boat, and the others were built by local builders; she came down and was challenged by the others, and yesterday gave them both a thrashing. A fine breeze favored both, which increased to a heavy rain equal

before they had been long out. The *Zulu*, with the *Katie Gray* second, and *Emma* third, but the latter very dangerously kept up her sails in the wind, and was ahead of the others. Mr. Cuthbert, however, was at the helm of his own boat, and on the stretch to the Portsmouth buoy gained first place, and the *Zulu* second. *Zulu* is a long way ahead, and the *Katie Gray* was to a good stout west breeze, giving the little yachts as much as they could stagger along without reefing. Their positions were changed, and after a very excellent day's hard racing the *Katie Gray* won the prize, a sweepstakes of \$800.

THE TWELVE.—We are informed that the celebration of the coming anniversary of the Oranienburg of this town will take place in Picton, an invitation to that effect having been received by the County Judge here.

THE BROTHERS OF BELLVILLE, Ontario, Sidney, Trenton, Mill Point, Napes, and other places along the Bay are expected to turn out in their strength. It is probable that the gathering will be a large one.

SABBATH SCHOOL CONVENTION.—The meeting held on Monday night for consultation with Rev. Mr. Miller, General Secretary of the Sabbath School Association of Canada, as to the holding of the next Convention here in October, was largely attended, nearly all the schools in town being represented. Mr. G. C. Newman, appointed Chairman and Mr. D. C. Ferguson, Secretary. After hearing some remarks from Mr. Miller, it was resolved that each Sabbath School in town be requested to name four members, who together shall form the local Committee, to make arrangements for the quartering of the delegates and for the perfection of other preliminary arrangements.

OPEN AIR MEETING.—Last night Mr. Wm. P. Crombie, Dominion Secretary of the Y. M. C. A., assisted by several other gentlemen, held another open air meeting in front of the market hall. A large number were gathered around, and seemed much impressed by the simplicity with which Mr. Crombie and the earnest trustees were sung, and the earnest trustees were sung, and the earnest trustees were sung.

THE WEATHER.—The last continues to be almost unchangeable. This morning the clouds gathered as for a shower, but were not so much as to fall. The crops have not suffered as yet, though on shallow light soils the effects of the rain are beginning to manifest themselves.

AN UNFOUNDED REPORT.

LONDON, June 14.—The *Daily News* Paris special says there is no reason to suppose that Prince McMahon will unconstitutionally force Buffet's candidature for the presidency. The subject was not discussed at yesterday's Cabinet meeting, but Buffet had an audience with the President on the subject.

The *Daily News* publishes a report in an official form declaring that recent reports concerning negotiations for the cession of the Alsace-Lorraine, to Germany, are totally unfounded.

down his bag, and pulling off his duster, said: "We shall not have time before daylight to walk to the garden, but I'll have the black mare harnessed, and drive you. A glass of cool lager from a fresh tap will walk the steers from my throat and bring you round—oh, General, and a capital idea: I will call Betty and let her follow the wagon, for the old girl's thirty, I'll be bound."

In the course of a few moments the two were sitting in the garden, the General quite himself again. "By the way," said he, "I've composed some lines to-day which you will stroll down here with me, I want to commit you about that codling I've prepared for my will. I shall send my lawyer as soon as I fix it to my satisfaction. You are to have a neat little pile of the motal that 'makes the horse go,' I've concluded that you, of all others, will best appreciate the contents of my bequest, and my literary efforts. May he mends when I alter my will. She'll have enough and to spare secure of all my bequests. That's a rare girl, Wilbur. But she's only a girl—the meek the pity."

A Farm-House Flirtation.

General Airie's history during the war had been one of strange adventures. At the time the rebellion broke out he had been a widower twenty years, and like most prominent army men, was accounted an "old" or "fat," as the terms are, enjoying high living and hard drinking. The last six months of the war he fell in love with the young widow of one of his lieutenants. This lady was a beautiful woman when she lost her husband, but seventeen years later, when General Airie proposed to her, she was a faded and aged woman. General Airie, however, was not deterred by her age, and he had been married for a short time, and she, having no children, accepted of the old soldier. General Airie, however, was not deterred by her age, and he had been married for a short time, and she, having no children, accepted of the old soldier. General Airie, however, was not deterred by her age, and he had been married for a short time, and she, having no children, accepted of the old soldier.

The General's grand-daughter was about graduating at a large academy on the Hudson, and she was to be married to a young man of the name of Wilbur. The General, however, was not deterred by her age, and he had been married for a short time, and she, having no children, accepted of the old soldier.

As the sun was quietly withdrawing his rays from the Ridge, leaving its green and golden fields more distinct in their more colored fringes, an old gentleman, who had been in the army, was walking in the garden. He was a man of about sixty years of age, with a white beard, and a white hair. He was a man of about sixty years of age, with a white beard, and a white hair.

The garden, which had been the chief attraction of the ridge for the General, was a small room in a house a little larger than a shanty. It was kept by a German and his wife, named Miller, who at night found numerous customers from the town working in the neighboring land. The view from the little beer-shop's window was a fine one, and it was a vast green garden extending far in all directions.

The General puffed away at his pipe until his contents were exhausted, when he peered the place, impatiently, and he was greatly relieved when he heard the new found friend, Mrs. Wilbur, who was a young woman, named Miller, who at night found numerous customers from the town working in the neighboring land.

General Airie, who was a man of about sixty years of age, with a white beard, and a white hair, was walking in the garden. He was a man of about sixty years of age, with a white beard, and a white hair.

FROM NEWHORO.

FIRE—LOSS \$2,000.

NEWHORO, Ont., June 20.—Last night at 11

o'clock, the house belonging to Owen Kennedy

of Kingston, and occupied by W. H. McLaughlin,

was destroyed by fire; the cause of the fire is

supposed to be an incendiary. By the way, the

fire was extinguished by the village fire company

of this building. Loss unknown. The building

was insured for \$1,000 in the Standard, and

stock for \$2,000 in the Gore Mutual.

EUROPEAN.

THE EASTERN QUESTION.

EXCITEMENT AND ANXIETY IN JERUSALEM.

General Uprising Threatened in Constantinople.

LONDON, June 20.—The Prussian Cross

Gazette publishes a private letter from Jerusalem

which says that great excitement and anxiety

prevail there, in consequence of the

excesses of the Turkish authorities, and the

threatened rise of the populace. On June 20

the Christians, fearing an attack, had

evacuated their houses, and foreign residents

kept an armed watch throughout the night.

The Germans met at their Consulate, organ-

ized a committee of defence, and sent to the

governor a formal application for military

assistance. The Turkish soldiers have

been permanently camped in the public

squares.

A Berlin despatch says that accounts re-

ceived from all sources are full of apprehen-

sion of further violence, and perhaps a gen-

eral uprising in Constantinople.

ST. LOUIS CONVENTION.

BLAINE AND GRANT SERENADED.

Grant Endorses Hayes and Wheeler.

NEW YORK, June 20.—The advance guards

of the City delegates to St. Louis left for the

west last night.

Washington, June 20.—After leaving Mr.

Blaine's residence last night the serenaders

proceeded to the White House and serenaded

the President. When an opportunity was

afforded him by the first fall in the noisy

demonstration, he said:

"Gentlemen, after all the talking you and

I have listened to to-night, for I hear what

you say yet, I believe I am not wrong, you cannot

have said it was a speaker, to hear what

any man has to say, but I cannot without the

approval of the excellent ticket given you by

the National Republican Convention at Cin-

cinnati, a ticket that should receive the

cordial support of all races in all sections. I

know you, Hayes personally, and I can

renew with myself pleasure in your present

position. I believe I am not wrong, you cannot

have said it was a speaker, to hear what

any man has to say, but I cannot without the

BELLVILLE, TUESDAY, JUNE 27.

"Hanging in Play Out."

These words, uttered by a New York rough after deliberately taking the life of a man who had not in any way wronged him, proved not to be prophetic of his own end, for hanged he was for his crime, though at the time they were uttered there was excellent reason for their use. At that time, capital punishment had been virtually abolished in the "Empire City," murders were almost certainly escaping the gallows, and the law had lost its terror and murder had become a crime of such frequent occurrence that at length the public became disgusted with the constant failure of justice and its attendant horrors, and the public officials were driven to do their duty; the gallows awaited the murderer; and the epidemic of crime came to a sudden end.

In Canada we are having a somewhat similar experience, and until the people demand that the law be not vigorously administered, it is not likely that the horrible crime of murder will become less frequent than it is unfortunately now.

The Canadian authorities are not so disgusted with the constant failure of justice and its attendant horrors, and the public officials were driven to do their duty; the gallows awaited the murderer; and the epidemic of crime came to a sudden end.

The following petitions were presented and read:
For a sidewalk on the east side of Geddes Street.
For a sidewalk on Gravel Street.
For a sidewalk on Gravel Street.
For opening of crossing on Geddes Street.
For opening of crossing on Geddes Street and the laying of a sidewalk on it.

From C. H. Hise for the renting of two rooms in the market building as a store house.

From Mary McCoy, for payment of a claim against the contractor for the foot bridge.

From M. Clarke and others, for remission of a fine imposed upon Dr. Potts and Rev. J. W. Burk, for carrying a corpse in St. Thomas' burial ground.

Communication from Rev. J. W. Burke asking the Council to memorialize the House of Commons for the removal of the statue of Sir John A. Macdonald.

From the Chief Engineer of the Fire Brigade, urging the erection of two stands for the steam engine.

From A. H. Douglass, concerning the opening of Hotel and Bridge Streets to the new boundary, the owners being willing to arbitrate for the necessary land, and take their place and two years.

From D. R. Robertson, Secretary of the Grand Junction Railway Company, stating that unless the Council determine at this meeting to submit a By-law, as petitioned for, steps will be taken to compel them.

From W. Hunter and others, protesting against the soap factory as a nuisance, and asking its removal.

From E. Hayne and others, for the postponement of the Dominion Day celebration until Monday, July 3rd.

From the Inspector of Weights and Measures, enclosing an account for rectification of market scales.

The Auditors' Report for 1875 was laid on the table.

Also the monthly auditors' report up to June 12th.

The Mayor said, the Royal Humane Society had communicated with him regarding the matter in hand, and would attend to it.

Mr. Henderson said, if the Council did not object, he proposed to rent two rooms each to Messrs. Wilkins and Hise, provided they were neither fire nor light, so that the insurance would not be invalidated.

REPORTS.
Of the Finance Committee, that sundry accounts be paid.

Of the Street Committee, that the petition of Dr. R. Leaven and others be not entertained at present; that the petition of A. Frodric and others be referred to the Fire, Water and Gas Committee; that 100 street signs be obtained from the Newby Company at 25c each; that several streets be graded, side-walks laid on gravel, and that repairs be made on others; also that they had advertised for and obtained the following tenders for lumber and nails for the use of the Corporation for the year:

NUMBER.
Bathurst & Sons, \$10 50
Baker, Jones & Co., 11 00 red pine.
W. Sutherland, 8 75 payment of season
Carl & Holten, 10 00 do. do.
Lewis & Kerr, 9 40

Several tenders for grading Oakeside, Geddes and Gravel Streets were also received. The Committee recommended the acceptance of W. Sutherland's tender for lumber; J. W. Walker for nails; Geo. Neilson (60 cents per cent per foot) for Gravel Street; and T. McGarry (60c. per foot) for Geddes Street; these being the lowest tenders.

NOTICE OF MOTION.
Mr. Beatty asked that the Clerk first report of the Monthly Auditor.

The Clerk said not.

Mr. Beatty gave notice for the production by the Clerk of the report at the next meeting.

The effect of these frequent reprieves has been in every season disastrous, though we are afraid that their full force has not yet been realized. The "hanging in play" has been unfortunately demonstrated, and the constantly increasing list of murders and murderous assault, and only by return to former practice can crime be reduced to a minimum.

We have no hesitation in charging this most undesirable state of affairs chiefly upon Mr. Blake. If that gentleman is in favor of the abolition of capital punishment, and takes this mistaken method of giving effect to his view—abusing his high position which he occupies to do so, he should endeavor to give effect to his ideas in Parliament, and resign if failure attend his efforts.

The House has already announced emphatically against the destructive idea of some few far advanced Cries that capital punishment should be abolished in this country, and until Parliament decrees that that view shall prevail, Mr. Blake is bound to allow the law to be administered in the manner with which we are all acquainted.

wherever the circumstances require it. A Minister who deliberately sets himself against Parliament, against the law, and against the voice of the people, as Mr. Blake has done, will very soon find his measure of unpopularity full, and an outraged people demanding his resignation.

Mr. Henderson considered that a By-law was not new matter, under the meaning of the act. He did not like the application. They were bound to submit the By-law, and the matter ought to be taken up and dealt with fairly.

Mr. Holden thought that their rules could not override an Act of Parliament. He asked whether it was within the rules to admit of the first view of a By-law at the next meeting? The Mayor said certainly not, if notice was given. According to the rules of Council notice was required. He felt that it was imperative to submit a By-law.

Mr. Patterson said he, for one, was willing to let the question of their being compelled to submit a By-law.

The matter then dropped.

WATER AND SEWER.
Council went into Committee in Ways and Means. Mr. Pops in the chair.

The report of the Finance Committee was adopted, also that of the Streets Committee. On motion of Mr. Henderson, seconded by Mr. S. Hamby, the Chairman of the Market Committee was authorized to rent the rooms in the market, provided the insurance be not invalidated.

Committee rose and reported.—Adopted.

HARBOR ACCOUNT.
Mr. Dugan read for a statement of Harbor account from the commencement of the collection of dues, also how and where the moneys raised have been expended.—Carried.

DOMINION DAY.
Mr. Holden moved, seconded by Mr. S. Hamby, that the Mayor issue his proclamation for the celebration of the 1st of July as a public holiday.

Mr. J. H. Hamby moved in amendment that Monday, July 3rd, be substituted.

Mr. Patterson seconded the motion. He did so in deference to the petition of the merchants. Mr. St. Charles said that all the important business in this city observed the proper day, and if we are to keep the day at all, with all due respect to the business men, we ought to celebrate the proper day. To celebrate Monday would be giving away a principle, and the merchants would not be by closing on Saturday, as other places have been to celebrate Monday.

Mr. Henderson fully endorsed the sentiments of Mr. St. Charles, as we should maintain and encourage our national sentiment. He spoke at further length and eloquently, and was applauded on concluding.

Mr. Pops said, "I am in my sentiment." The amendment was put and lost, and the original motion carried by 8 to 3.

Council adjourned.

NORTH ONTARIO.—Comparatively little is heard from this constituency, but our private advices are highly favorable, the riding being represented as alive with enthusiasm for its former representative.

Mr. W. H. Gibbs, whose prospects are believed to be excellent.

CANADIAN SHIPPING.—A cable dispatch says in the debate on the Shipping Bill in the House of Lords, on Friday night, Lord Carnarvon spoke of Canada as the fourth ship owning country in the world, and said that before the third reading of the bill should be made in the House of Lords to remove the apprehensions of Canadian shipowners. The bill was referred to a Committee of the whole House, to be discussed on the 3rd of July.

THE STORM IN NEW BRUNSWICK.—The storm of the 26th inst. was particularly severe in New Brunswick. A report says: "The rain, hail and thunder storm yesterday morning was one of the severest ever witnessed here. Conservatories were badly damaged. The lightning struck the Royal Hotel, stripping off about a third of the dental modelling, beneath the projecting cornice of the corner communicating at the southern corner of the building. The hailstones in some places looked like fragments of ice, some square and some round, with a general thickness of half an inch, varying in length and breadth from a quarter to three-quarters of an inch."

BURGULARY TOLDS.—A further lot of burglar tools were found in the Station yard at Clifton on the 24th inst. The two men who were sentenced to six months imprisonment, deny all knowledge of ownership of the tools. A report says the men and tools were going to Toronto, and no doubt if they had got to their destination, some monetary institutions of that city would have suffered before this time. The kit is estimated to be worth upwards of \$500 and would cost money to go through any kind of structure. Experienced mechanics have inspected these implements, and say they are most ingeniously made, and surpass anything in modern inventions of the kind.

EUROPEAN GRAIN TRADE.—The *Mark Lane Express* of the 26th inst., in reviewing the grain trade says:—"The wheat trade has become quiet. Supplies are being rapidly pushed forward from America and Russia, and with the anticipated enormous California crop in the hands of the exporters, probability exists of prices advancing. The off coast grain trade has ruled quiet; but a rather better demand has been apparent for cargoes of wheat, at a decline of about two pence per quarter, since last week's prices. No improvement has taken place for forward shipment, as the supply of the coast is more than sufficient to meet present requirements. Maize and barley offer no new features."

SOUTH ONTARIO.—The contest in this constituency grows hotter day by day, and the Government are evidently determined to beat Mr. Gibbs—if they can. The Finance Minister has visited the Riding the Premier to use his oratorical ability on behalf of his weakening cause; and now the "hero of Argonneville," Mr. Huntington, has gone to the assistance of the party in their desperate straits, the hon. gentleman having passed west this morning. Mr. Gibbs is a host in himself, but he does not lack champions, and ere long both parties will be hotly engaged on the field of battle by their ablest generals. We do not fear the oratory of Ministers and the hacks who follow in their train; but there is much to apprehend from the money bags of Mr. Simpson, who use the law as a political machine. In spite of all these adverse influences, we confidently expect the return of Hon. T. M. Gibbs, who has set them all at defiance on former occasions.
